PROJECTS

E-commerce store   Aug. 20, 2020 - Sept. 5, 2020
Mentor: YouTube and online content | **Team Size:** 2

Key Skills: Django   Javascript   Bootstrap   JQuery   AJAX

This was one of my best project and definately a big task to do. First of all, a lot of url and passing data between sender and receiver using ajax and then storing order id, customer detail,updating cart and maintenance of cart and saving order details and there was also a feedback for the customer to get updated status of order .It was a good project and i got familiar with django later i realise it was a good platform for a complete working project.It was a great experience.

Food restaurant website   July 1, 2020 - July 15, 2020
Mentor: Online learning | **Team Size:** 1

Key Skills: HTML   CSS   Bootstrap   Javascript   JQuery

It basically a restraunt website that i had created while learning from coursera course (HTML,CSS AND JS for web development).I do familiar with HTML5,css3 , js and ajax also but i tried my best to learn same and actually created a similar kind of project from scratch.
